

Queen City Wheelmen

Cincinnati, Ohio

April 15, 1981

TIME TRIALS - Tuesday, April 28, 1981, at 6:30 PM, Mark Vincent will start the 1981 season promptly. Be there to set your season's goal and find out exactly where you stand and how far you need to go to beat last year's best time. See you there at 6:30 PM sharp.

TOSRV - An especially large contingent from the Queen City Wheelmen will be riding this year. Club members riding up on Friday will be staying over night at the Red Roof Inn. Bag space will be available rather cheaply. We have reserved two double rooms. Make sure, if you plan on riding, to meet with the club.

CYCLE JOURNEY - The itinerary is attached. Look it over and get inspired. 1,093 miles in the US and Canada in two weeks leaving June 14th. The cost of sag, routing, equipment shuttle, etc., is shared by those going, but there still is a 35-rider limit. You can still call Mike Albrinck at 761-6425 or 521-1226 or Greg Hanfbauer at 244-7164 for details.

USCF MAILBAG - USCF is selling everything! Decals, bike decals, bumper stickers, jacket patches, hats, pins, t-shirts. If you should be interested in any of these unique go-fasters, please send us a self-addressed, stamped envelope, and we can mail you the order forms and product description.

USCF licensed athletes and officials while participating in sanctioned Federation activities are now covered by accident insurance. The coverage provided by the Federation policy is excess over an individual's personal insurance. The deductible is \$400; all licensed riders are automatically covered; claims are submitted through USCF.

TRAINING RIDES - The rides leave the shop at 10:00 AM Saturday and Sunday until further notice; destination east or west. Contact Tim Weber, Dan Mocsny or John Montag for details. The east side/west side controversy rages--which has the best roads for training? The vocal east siders seem to be winning the weekend war. Maybe a west sider will respond with some favorable routes.

FAMIGLIA FESTIVAL - On June 7, 1981 the Festival will once again prove to be an overwhelming success--everything from grape stomping to square dancing; something for everyone. If you choose not to race in the sanctioned events, perhaps you can reserve that special horse and ride in the horse races scheduled between the cycling events. Give Roger Auge a call.

CLASSIFIEDS - Used Track Wheels Campy Nisi--Price negotiable.
New Ambrosia Heat-Treated Rims--\$95.00
New Shimano 600 10-flange hubs--\$30.00
Call: Brian Jones - 321-6136

CCCCC - The first successful bike race for the Queen City Wheelmen in years is now history. Even the storm that added an exciting European touch contributed to the excitement. It received excellent media coverage; promotional efforts were excellent; all areas were efficiently executed and the support was unequalled this year. The results are attached and they speak for themselves. HEY, WATSON, how about the Blue Ash Race?

Welcome back, Bill Mirbach. The Time Trials are Tuesday, April 28. Would love to see that new body in your new skin suit. You have already taken 60 seconds off your time!
